Governing Body

This policy supplements and should be read in conjunction with the London Borough of Enfield, Schools Health Safety Framework Policy. It lays down the local organisation and arrangements established by the governing body to implement that policy.

The governing body is committed to high standards of health, safety and wellbeing and will take all reasonable steps to ensure the Schools and Children's Services Health and Safety Framework Policy, and its health and safety procedures e.g. Health and Safety documents available on Fronter, Fire Log Book, Responsible Persons Premises Log etc are implemented. In view of this, the school's own safety policy has been devised to complement that of the Local Authority and provide those details that a Local Authority policy cannot.

The governing body recognises its responsibilities as set out in the Local Management of Schools Scheme. We will endeavour to ensure the Schools and Children's Services department's Framework policy is implemented with regard to:

- a safe and healthy working environment with adequate control of health and safety risks arising out of the school's activities
- an effective local organisation to implement the policy
- full consultation with staff on matters affecting their health and safety
- effective communication throughout the school on health and safety matters
- provision of information, instruction and supervision
- ensuring staff are competent to carry out their work and meet their health and safety responsibilities; and the provision of adequate training and development
- obtaining competent advice when that is not available within the school
- risk assessments are undertaken and the necessary controls implemented
- the effective management of contractors
- effective monitoring and review of the implementation of the policy and health and safety performance adequate resources to implement this policy

The governing body will review this policy annually.

Signed:

Chair of Governors

Date

7/6/19

Responsibilities

Head

The Head is responsible for the overall implementation of this policy throughout the school. This includes day-to-day responsibility for maintenance and development of safe working practices and conditions for all staff, pupils, visitors and any other person using the premises or undertaking activities under the school's control. In particular, the Head will:

- (a) nominate a senior manager as health and safety coordinator
- (b) ensure subordinate managers meet their health and safety responsibilities
- (c) ensure the arrangements for consultation with staff are implemented and ensure that the safety team meets termly.
- (d) ensure effective communication of health and safety matters
- (e) ensure requirements with regard to staff competence are met
- (f) ensure health and safety standards, school health and safety procedures/codes of practice are implemented
- (g) ensure risk assessments are carried out
- (h) undertake risk assessments in relation to directly managed staff (e.g. stress risk assessments)
- (i) ensure health and safety monitoring is undertaken, including:
 - (i) incident reporting and investigation
 - (ii) specific equipment & premises inspections
 - (iii) termly inspections
 - (iv) monitoring of health safety action plans
 - (v) health and safety in staff appraisals
 - (vi) ensuring an annual (or ongoing) report is provided to the governing body
 - (vii) make recommendations to the governing body in relation to external independent audits
 - (viii) report to the governing body any health and safety issues that cannot be resolved.

Leadership Team

The leadership team will support the Head with regard to the overall management of health and safety in the school. This includes:

- (a) providing leadership by ensuring health and safety is considered as part of every decision
- (b) considering the health and safety impact of new initiatives
- (c) informing the Head about any health and safety issues that affect the school
- (d) agreeing strategic health and safety initiatives
- (e) monitoring the overall implementation of the schools health and safety policy in their areas of control and agreeing health and safety reports.

School Health and Safety Coordinator

The health and safety coordinator is responsible for the overall coordination of health and safety throughout the school on behalf of the Head. Responsibilities include:

- (a) co-ordinating all aspects of health, safety and wellbeing policy and practice
- (b) liaising with safety representatives and attending the safety committee
- (c) disseminating health and safety information
- (d) coordinating accident reporting procedures
- (e) coordinating emergency evacuation procedures
- (f) ensuring health and safety matters raised by staff are dealt with
- (g) maintaining a central file of health and safety procedures and other relevant information;
- (h) monitoring implementation of the policy by:
 - (i) ensuring heads of department undertake inspections
 - (ii) ensuring incidents are investigated
 - (iii) reporting 'reportable' incidents to the Health and Safety Executive.
 - (iv) managing the schools annual monitoring checklist
 - (v) making recommendations to the Head teacher about an independent audit
 - (vi) reporting health and safety issues that cannot be resolved to the Head/governing body.

Other managers – Year Group Leaders/School Priority Leaders

Managers are responsible for implementing this policy in their area of control.

This includes:

- (a) ensuring staff meet their health and safety responsibilities
- (b) consulting with staff on matters affecting their health and safety
- (c) communicating health and safety information to staff
- (d) assessing staff competence and ensuring appropriate training and development
- (e) ensuring school-wide health and safety standards, and school health and safety procedures/codes of practice, are implemented
- (f) ensuring risk assessments are carried out
- (g) ensuring safe working procedures and codes of practice are prepared for activities under their control
- (h) undertaking risk assessments in relation to directly managed staff
- (i) implementing monitoring arrangements, such as:
 - (i) incident reporting and investigation
 - (ii) specific equipment / premises inspections
 - (iii) termly inspections
 - (iv) the schools annual monitoring checklist
 - (v) including health and safety in staff appraisals
- (j) reporting any health and safety issues which cannot be resolved to the health and safety coordinator/Head.

All members of staff

As a school, our aim is not simply to avoid accidents and hazards, but to motivate and empower people to work safely and to protect the health of themselves and of others at all times.

We recognise the value of adopting a planned and systematic approach to policy implementation, which minimises the risks created by work activities, and by the products and services used. Wherever possible, risks will be eliminated by the careful selection and design of facilities, equipment and processes, or minimised by the use of physical control measures. Where this is not possible, safe systems of work and personal protective equipment will be introduced to control the risks more directly. At Hazelwood, we take a collective responsibility towards Health and Safety.

To achieve these objectives, we are committed, so far as is reasonable and practicable, to supporting the implementation of the schools' Health and Safety Policy through ensuring the awareness of all employees, through the provision of training and guidance, and by making available expert advice where necessary.

All members of staff are responsible for:

- (a) taking care of their own health and safety and the health and safety of others affected by their actions
- (b) co-operating with the governing body by following the schools safe working procedures and meeting responsibilities laid down in this policy
- (c) reporting health and safety hazards and any inadequacies they identify in health and safety procedures to their line manager or the school health and safety coordinator
- (d) undertaking any health and safety training/development identified as necessary
- (e) using work equipment in accordance with safe working procedures, instructions and training
- (f) not making unauthorised or improper use of equipment
- (g) ensuring a risk assessment is undertaken when carrying out projects or new activities
- (h) reporting health and safety incidents, and near misses, in accordance with the schools reporting procedures.

Premises/Site Managers

In addition to requirements designated in manager or staff roles, site managers are responsible for ensuring premises related maintenance, repairs and other works are carried out to required standards. Where tasks relevant to health and safety (e.g. fire alarm testing) have been delegated the site manager should be suitably competent and trained as necessary.

Safety Representatives

Safety representatives do not have responsibilities under this policy. However, they have functions as laid down in the Safety Representatives and Safety Committees Regulations 1977 (SI 1977 No. 500). Reasonable time will be provided to enable safety representatives to carry out their functions subject to the exigencies of the service. This should be arranged with their line manager and the health and safety coordinator.

Where no union representation for safety is available under the Safety Representatives and Safety Committees Regulations 1977, the Health and Safety (Consultation with Employees) Regulations 1996 will apply and employees will be consulted directly as individuals, or through **elected** health and safety representatives (known as “representatives of employee safety” in the Regulations), or a combination of the two.

ARRANGEMENTS FOR IMPLEMENTING THE POLICY

Consultation with Staff

Health and Safety Committee

There is an established health and safety committee for Schools and Children's Services, which meets termly. It is chaired by the Chief Education Officer, and includes management representatives and safety representatives elected by the staff. The committee facilitates consultation on schools issues, such as policy, strategy and guidance. It is also a forum where safety representatives can raise issues concerning health and safety and where unresolved issues can be addressed.

Local consultation

Line managers will consult directly with staff on health and safety issues relevant to a particular department or work area.

There is an established health and safety committee for the school, which meets termly. It is led by the H & S Co-ordinator and includes management representatives and safety representative, the Schools' Manager and the Site manager. The committee facilitates consultation on local schools issues, such as policy, strategy and codes of practice. It is also a forum where safety representatives can raise issues concerning health and safety and where unresolved issues can be addressed

Health and Safety Procedures

The Schools Health and Safety Team has drawn up health and safety procedures and arrangements covering school-wide issues. These include the Health and Safety Framework Policy, Health and Safety Policies and health and safety guidance and procedures as found in the Health and Safety section on Fronter), Fire Log Book, Responsible Persons Premises Log etc.

Further procedures following required control measures for the school are drawn up locally following risk assessment.

Educational visits

The role of the educational visits coordinator, arrangements for seeking approval - both within the school and where appropriate from the LA, planning and safety during the visit, pre-visits, staff ratios, etc is covered in the 'Guidance for off-site Visits and Related Activities with EVOLVE, issued by the LA.

Administering of Medicines

See Supporting Pupils with Medical Needs Policy

Fire and Emergency Procedures

The roles of all staff; how the evacuation will be conducted; arrangements for ensuring everyone has left the building etc are derived from risk assessment and follow from guidance in the Fire Log Book

Risk Assessments

The health and safety procedures referred to above were drawn up on the basis of an assessment of the risks. Some require further detailed assessment of the activity (e.g. display screen equipment, educational visits); in these cases the relevant member of

staff must undertake the assessment. Others are generic risk assessments and where activities comply with the assessment there is no need to record a separate assessment. Where an activity differs from the generic assessment, the person responsible for the activity must ensure there is a re-assessment to account for these variations.

Where this is minor it may be no more than adding a simple local variation to the generic assessment. Heads of department and other line managers are responsible for ensuring risk assessments are drawn up and implemented for activities carried out under their area of control. For many such activities, line managers should arrange for a departmental health and safety procedure to be drawn up as a generic assessment, although, again, local variations may be needed when it is necessary to deviate from the generic assessment.

Formats for general risk assessment are available from the schools policy and guidance on risk assessment and includes specific guidance and advice e.g pupil risk assessment is available from the Schools Health and Safety section on The Hub. .
